The auditor's opinion is presented in the auditor's report as a part of this annual report.

The Board of Directors considers the Company's overall internal control system satisfactory and provides credibility and reliability to Advanced Info Service Public Company Limited's financial statements and Advanced Info Service Public Company Limited and its subsidiaries' consolidated financial statements for the year ended 31 December 2020. The Board of Directors also believes that all these financial statements have been prepared in accordance with generally accepted accounting principles and related regulations.

Mr. Kan Trakulhoon  
Chairman of the Board of Directors

Mr. Somchai Lertsutiwong  
Chief Executive Officer

## Report of the Independent Certified Public Accountants

TO THE SHAREHOLDERS AND BOARD OF DIRECTORS  
ADVANCED INFO SERVICE PUBLIC COMPANY LIMITED

### Opinion

We have audited the consolidated financial statements of Advanced Info Service Public Company Limited and its subsidiaries (the “Group”) and the separate financial statements of Advanced Info Service Public Company Limited (the “Company”) which comprise the consolidated and separate statements of financial position as at December 31, 2020, and the related consolidated and separate statements of profit or loss, profit or loss and other comprehensive income, changes in shareholders’ equity and cash flows for the year then ended, and notes to the consolidated and separate financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated and separate financial statements present fairly, in all material respects, the financial position of Advanced Info Service Public Company Limited and its subsidiaries and of Advanced Info Service Public Company Limited as at December 31, 2020, and its financial performance and its cash flows for the year then ended in accordance with Thai Financial Reporting Standards (“TFRSs”).

### Basis for Opinion

We conducted our audit in accordance with Thai Standards on Auditing (“TSAs”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated and Separate Financial Statements section of our report. We are independent of the Group in accordance with the Federation of Accounting Professions’ Code of Ethics for Professional Accountants together with the ethical requirements that are relevant to the audit of the consolidated and separate financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Emphasis of Matter

Without modifying our opinion, we draw attention to Note 2.4 to the financial statements that Advanced Info Service Public Company Limited and its subsidiaries have adopted group of Financial Instruments Standards and Thai Financial Reporting Standard No. 16 “Leases” which become effective for fiscal years beginning on or after January 1, 2020. The Group elected to recognize the cumulative effect of initially applying such Standards as the adjustments to the beginning balances of retained earnings and other components of shareholders’ equity of the reporting period.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and separate financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters	Audit Responses
<b>Revenue recognition</b> There is a risk around the accuracy of the Group’s revenue recorded given the complexity of IT systems and the impact of changing pricing models to revenue recognition. Furthermore, the application of revenue recognition accounting standards is complex.  We focused our audit on the following areas of revenue recognition specifically relating to <ul style="list-style-type: none"> <li>accounting and tariffs during the year;</li> <li>the accuracy of revenue recognition</li> </ul> Accounting policies for revenue recognition was disclosed in Note 3.17 to the financial statements.	Key audit procedures included: <ul style="list-style-type: none"> <li>Evaluated the relevant IT systems and the design and implementation and operating effectiveness of controls over the capture and recording of revenue transactions. In doing so, we involved our IT specialists to assist in the audit of automated controls, including interface controls between different IT applications.</li> <li>Evaluated the business process controls in place over the authorization of rate changes, the introduction of new plans and the input of this information to billing systems. We audited the access controls and change management controls for such systems.</li> <li>Performed audit on the accuracy of customer bill generation on a sample basis and testing of a sample of the credits and discounts applied to customer bills; and testing cash receipts for a sample of customers back to the customer invoice.</li> <li>Audited key reconciliations used by management from business support systems to billing systems to the general ledger to assess the completeness and accuracy of revenue.</li> <li>Audited supporting evidence for manual journal entries posted to revenue accounts to identify any unusual items.</li> <li>Validated with the assumptions and key management estimates adopted where revenue is recognized but they have not issued invoice yet and items that have been paid but still has an obligation to provide future services to customers</li> <li>Audited of accuracy of TFRS 15 “Revenue from contracts with customers”</li> </ul>

Key Audit Matters	Audit Responses
<p><b>Significant commercial disputes and litigations</b></p> <p>The Group has several legal, regulatory and commercial disputes. There is a high level of judgement required in estimating the level of provisioning required.</p> <p>The Group operates under the supervision of the National Broadcasting and Telecommunications Commission (NBTC). If NBTC has acted lawfully upon any interpretation amendments and/or enactment of new rules and regulations, the Group may not lawfully file a lawsuit and/or make any claim for any indemnification.</p> <p>In addition, the Group cooperates with state-owned enterprises such as National Telecom Public Company Limited. There is a risk of conflict between the entities from different interpretation in terms and conditions of contract.</p> <p>Significant events, commercial disputes and litigations were disclosed in Note 40 to the financial statements.</p>	<p>Key audit procedures included:</p> <ul style="list-style-type: none"> <li>Designed and performed audit procedures in order to identify litigations and disputes involving the Group which may give rise to a risk of material misstatement, including: <ul style="list-style-type: none"> <li>Inquired of management and in-house legal counsel about significant events, commercial disputes and litigation.</li> <li>Reviewed minutes of meetings of those charged with governance.</li> <li>Sent legal confirmation to external legal counsel regarding to status of significant legal cases.</li> <li>Reviewed legal expense accounts.</li> </ul> </li> <li>Considered compliance with laws and regulations of the Group including: <ul style="list-style-type: none"> <li>As part of obtaining an understanding of the Group and its environment, we obtained a general understanding of: <ul style="list-style-type: none"> <li>The legal and regulatory framework applicable to the Group and the industry or sector in which the Group operates; and</li> <li>How the Group is complying with that framework.</li> </ul> </li> <li>Inquired of management and those charged with governance, as to whether the Group is in compliance with such laws and regulations and inspecting correspondence, if any, with the relevant regulatory authorities such as NBTC.</li> </ul> </li> <li>Requested management to provide written representations that all known actual or possible litigation and claims whose effects should be considered when preparing the financial statements have been disclosed to us and accounted for and disclosed in accordance with Thai Financial Reporting Standards.</li> </ul>

## Other Information

Management is responsible for the other information. The other information comprises information in the annual report, which is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to management and those charged with governance for correction of the misstatement.

## Responsibilities of Management and Those Charged with Governance for the Consolidated and Separate Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with TSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Coronavirus Disease 2019 Pandemic

The Coronavirus disease 2019 (“COVID-19”) pandemic is continuing to evolve, resulting in an economic slowdown and adversely impacting most businesses and industries. This situation may bring uncertainties and have an impact on the environment in which the group operates. Nevertheless, the Group’s management will continue to monitor the ongoing development and regularly assess the financial impact in respect of valuation of assets, provisions and contingent liabilities.

### 2. BASIS FOR PREPARATION AND PRESENTATION OF THE FINANCIAL STATEMENTS

- 2.1 The Group and the Company maintain its accounting records in Thai Baht and prepares its statutory financial statements in the Thai language in conformity with Thai Financial Reporting Standards and practice generally accepted in Thailand.
- 2.2 The Group’s and the Company’s financial statements have been prepared in accordance with the Thai Accounting Standard (“TAS”) No. 1 “Presentation of Financial Statements”, which was effective for financial periods beginning on or after January 1, 2020 onward, and the Regulation of The Stock Exchange of Thailand (“SET”) dated October 2, 2017, regarding the preparation and submission of financial statements and reports for the financial position and results of operations of the listed companies B.E. 2560 and the Notification of the Department of Business Development regarding “The Brief Particulars in the Financial Statement (No.3) B.E. 2562” dated December 26, 2019.
- 2.3 The financial statements have been prepared under the historical cost convention except as disclosed in the significant accounting policies (see Note 3).
- 2.4 Thai Financial Reporting Standards affecting the presentation and disclosure in the current period financial statements

During the year, the Group and the Company have adopted the revised and new financial reporting standards issued by the Federation of Accounting Professions which become effective for fiscal years beginning on or after January 1, 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Group’s and the Company’s financial statements. However, the new standards which become effective for fiscal year and involve changes to key principles are summarised below:

### 2.4.1 Thai Financial Reporting Standards No. 9 “Financial instrument” (“TFRS 9”)

#### Group of Financial Instruments Standards

On September 21, 2018, the Federation of Accounting Professions has issued the Notification regarding Thai Financial Reporting Standards that are relevant to financial instruments, which have been announced in the Royal Gazette and will be effective for the financial statements for the period beginning on or after January 1, 2020 onwards, as follows:

#### Thai Accounting Standards (“TAS”)

TAS 32	Financial Instruments: Presentation
--------	-------------------------------------

#### Thai Financial Reporting Standards (“TFRS”)

TFRS 7	Financial Instruments: Disclosures
TFRS 9	Financial Instruments

#### Thai Financial Reporting Standard Interpretations (“TFRIC”)

TFRIC 16	Hedges of a Net Investment in a Foreign Operation
TFRIC 19	Extinguishing Financial Liabilities with Equity Instruments

The Group’s management has adopted these Financial Instruments Standards by recognizing the cumulative effect of initially adopting of these TFRSs as the adjustments to the opening balances of retained earnings and other component of shareholders’ equity of the reporting period.

Group of Financial Instruments Standards introduce new requirements for:

- 1) The classification and measurement of financial assets and financial liabilities,
- 2) Impairment of financial assets, and
- 3) General hedge accounting.

### 2.4.2 Thai Financial Reporting Standard No. 16 "Leases" ("TFRS 16")

The Group has applied TFRS 16 using the cumulative catch-up approach which:

- Requires the Group to recognize the cumulative effect of initially applying TFRS 16 as an adjustment to the opening balance of retained earnings at the date of initial application.
- Does not restate the comparative information and continue to present comparative information under TAS 17 and TFRIC 4.

Financial impact of the initial application of TFRS 16

The Group and the Company recognized lease liabilities in relation to leases, which had previously been classified as operating leases under the principles of TAS 17. The right-of-use assets were measured at amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the statement of financial position immediately before the date of initial application. These liabilities were measured at the present value of the remaining lease payments, discounted using the Group's incremental borrowing rates. The average lessees incremental borrowing rate applied to lease liabilities recognized in the consolidated and separate statements of financial position on January 1, 2020 are 2.06% and 2.35%, respectively, according to period of contract.

For leases previously classified as finance leases applying TAS 17, the Group and the Company recognized the carrying amount of the lease asset and lease liability immediately before adoption of TFRS 16 as the carrying amount of the right-of-use asset and the lease liability at the date of initial application.

Accounting Treatment Guidance on “ The temporary relief measures for additional accounting alternatives to alleviate the impacts from COVID-19 outbreak”

This accounting treatment guidance is the option for all entities applying Financial Reporting Standards for Publicly Accountable Entities. Since the preparation of financial statements during the period, which COVID-19 situation still be highly uncertainty as at the end of reporting period may cause the entities’ management to use the critical judgment in the estimation or the measurement and recognition of accounting transactions. Objective of this accounting treatment guidance is to alleviate some of the impact of applying certain financial reporting standards, and to provide clarification about accounting treatments during the period of uncertainty relating to this situation. The entities can apply this accounting treatment guidance for the preparation of financial statements with the reporting period ending within the period from January 1, 2020 to December 31, 2020.

The Group has elected to apply not to account for any reduction in lease payments by lessors as a lease modification, with the lease liabilities that come due in each period reduced in proportion to the reduction and depreciation of right-of-use assets and interest on lease liabilities recognized in each period reversed in proportion to the reduction, with any differences then recognized in profit or loss.

However, the impact of the accounting treatment guidance does not have a significant impact on the consolidated and separate financial statement.

#### 2.5 Thai Financial Reporting Standard No.16 “Leases”

TFRS 16 has been amended for the Rent Concessions related to COVID-19, which is effective from 1 June 2020 with earlier application permitted. The amendment permits lessees, as a practical expedient, not to assess whether rent concessions that occur as a direct consequence of the COVID-19 pandemic and meet specified conditions are lease modifications and, instead, to account for those rent concessions as if they were not lease modifications. In addition, the revised TFRS 16 also added the requirements for the temporary exception arising from interest rate benchmark reform, which an entity shall apply these amendments for annual reporting periods beginning on or after January 1, 2022 with earlier application permitted. This revised TFRS 16 has been announced in the Royal Gazette on January 27, 2021.

#### 2.6 Thai Financial Reporting Standards announced in the Royal Gazette but not yet effective

The Federation of Accounting Professions has issued the Notification regarding Thai Accounting Standards, Thai Financial Reporting Standards, Thai Accounting Standards Interpretation and Thai Financial Reporting Standard Interpretation, which have been announced in the Royal Gazette and will be effective for the financial statements for the period beginning on or after January 1, 2021 onwards. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revisions to references to the Conceptual Framework in TFRSs, except for the revisions of definitions and accounting requirements as follows:

##### Definition of Business

The revised Thai Financial Reporting Standard No.3 “Business Combinations” clearly clarifies the definition of business and introduce an optional concentration test. Under the optional concentration test, the acquired set of activities and assets is not a business if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar assets. This revised financial reporting standard requires prospective method for such amendment. Earlier application is permitted.

##### Definition of Materiality

The revised definition of materiality resulted in the amendment of Thai Accounting Standards No.1 “Presentation of Financial Statements” and Thai Accounting Standards No.8 “Accounting Policies, Changes in Accounting Estimates and Errors”, including other financial reporting standards which refer to materiality. This amendment is intended to make the definition of material to comply with the Conceptual Framework which requires prospective method for such amendment. Earlier application is permitted.

##### The Interest Rate Reform

Due to the interest rate reform, there are the amendments of specific hedge accounting requirements in Thai Financial Reporting Standard No.9 “Financial Instruments” and Thai Financial Reporting Standard No.7 “Financial Instruments: Disclosures”.

#### Conceptual Framework for Financial Reporting

The revised Conceptual Framework for Financial Reporting consisted of the revised definitions and recognition criteria of asset and liability as well as new guidance on measurement, derecognition of asset and liability, presentation and disclosure. In addition, this Conceptual Framework for Financial Reporting clearly clarifies management’s stewardship of the entity’s economic resources, prudence, and measurement uncertainty of financial information.

The Group’s management will adopt such TFRSs in the preparation of the Group’s financial statements when they become effective. The Group’s management is in the process to assess the impact of these TFRSs on the financial statements of the Group in the period of initial application.

### 3. SIGNIFICANT ACCOUNTING POLICIES

Except for Note 2.4 to the financial statements have been prepared under the measurement basis of historical cost except as disclosed in the significant accounting policies as follows:

#### 3.1 Basis of consolidation

The consolidated financial statements relate to the Company and its subsidiaries (together referred to as the “Group”) and the Group’s interests in an associate and joint ventures.

##### Business combinations

The Group and the Company apply the acquisition method for all business combinations when control is transferred to the Group other than those with entities under common control.

Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, the Group and the Company take into consideration potential voting rights that currently are exercisable. The acquisition date is the date on which control is transferred to the acquirer. Judgment is applied in determining the acquisition date and determining whether control is transferred from one party to another.

Goodwill is measured as the fair value of the consideration transferred including the recognized amount of any non-controlling interest in the acquiree, less the net recognized amount (generally fair value) of the identifiable assets acquired and liabilities assumed, all measured as of the acquisition date.

Consideration transferred includes the fair values of the assets transferred, liabilities incurred by the Group and the Company to the previous owners of the acquiree, and equity interests issued by the Group and the Company. Consideration transferred also includes the fair value of any contingent consideration and share-based payment awards of the acquiree that are replaced mandatorily in the business combination. If a business combination results in the termination of pre-existing relationships between the Group and the Company and the acquiree, then the lower of the termination amount, as contained in the agreement, and the value of the off-market element is deducted from the consideration transferred and recognized in other expenses.

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

A contingent liability of the acquiree is assumed in a business combination only if such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably.

The Group and the Company measure any non-controlling interest (NCI) at its proportionate interest in the identifiable net assets of the acquiree.

Transaction costs that the Group and the Company incur in connection with a business combination such as legal fees, other professional and consulting fees are expensed as incurred.

#### Acquisitions from entities under common control

Business combinations of entities or businesses under common control are accounted for using a method similar to the pooling of interest method and in accordance with the Guideline issued in 2009 by the Federation of Accounting Professions.

#### Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

#### Loss of control

When the Group loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any resulting gain or loss is recognized in the statement of profit or loss and the statement of profit or loss and other comprehensive income. Any interest retained in the former subsidiary is measured at fair value when control is lost.

#### Interests in equity-accounted investees

The Group's interests in equity-accounted investees comprise interests in an associate and joint ventures.

The Company's interests in equity-accounted investees comprise interests in subsidiaries.

Associate is entity in which the Group has significant influence, but not control or joint control, over the financial and operating policies.

Joint venture is a joint arrangement whereby the parties that have a joint control arrangement have rights to the net assets of the arrangement. The investment in a joint venture is accounted for in the consolidated financial statements using the equity method and is recognized initially at cost.

Interests in an associate, subsidiaries and joint ventures are accounted for using the equity method. They are recognized initially at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated and separate financial statements include the Group's and the Company's share of profit or loss of equity-accounted investees in the profit or loss and other comprehensive income, until the date on which significant influence or joint control ceases.

#### Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealized income or expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealized gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

### 3.2 Foreign currencies

#### Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency (Thai Baht) of the Group at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the foreign exchange rates ruling at that date. Foreign exchange differences arising on translation are recognized in the statement of profit or loss.

Non-monetary assets and liabilities measured at cost in foreign currencies are translated to the functional currency using the foreign exchange rates ruling at the dates of the transactions.

### 3.3 Financial instruments

#### a) Policies applicable from January 1, 2020

Financial assets and financial liabilities are recognized in the Group and the Company consolidated statement of financial position and separate statement of financial position when the Group and the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

#### Financial assets

All recognized financial assets are measured subsequently in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

#### Classification of financial assets

Debt instruments that meet the following conditions are measured subsequently at amortized cost;

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are measured subsequently at fair value through profit or loss (FVTPL).

Despite the foregoing, the Group and the Company may make the following irrevocable election/designation at initial recognition of a financial asset;

- The Group and the Company may irrevocable elect to present subsequent changes in fair value of an equity investment in other comprehensive income if certain criteria are met (see (2) below); and
- The Group and the Company may irrevocable designate a debt investment that meets the amortized cost or FVTOCI criteria as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch (see (3) below).

#### (1) Amortized cost and effective interest method

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period.

Interest income is recognized in profit or loss and is included in the “finance income” line item.

#### (2) Debt instruments classified as at FVTOCI

On initial recognition, the Group and the Company may make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognized by an acquirer in a business combination.

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs.

Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in the investments revaluation reserve. The cumulative gain or loss is not be classified to profit or loss on disposal of the equity investments, instead, it is transferred to retained earnings.

The Group and the Company has designated all investments in equity instruments that are not held for trading as at FVTOCI on initial application of TFRS 9 (See Note 2.4).

#### (3) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortized cost or FVTOCI (see (1) to (2) above) are measured at FVTPL. Specifically;

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognized in profit or loss to the extent they are not part of a designated hedging relationship (see hedge accounting policy). The net gain or loss recognized in profit or loss and is included in the “gain (loss) from fair value measurement of derivative assets” line item. Fair value is determined in the manner described in Note 2.4

#### Impairment of financial assets

The Group and the Company recognizes a loss allowance for expected credit losses on lease receivables, trade receivables and contract assets, as well as on financial guarantee contracts. The amount of expected credit losses is updated at each reporting period date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group and the Company always recognizes lifetime ECL for trade receivables and contract assets. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group and the Company’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

#### (1) Write-off policy

The Group and the Company writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. Financial assets written off may still be subject to enforcement activities under the Group and the Company’s recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognized in profit or loss.

## Notes to the Financial Statements

Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

### (2) Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default, for financial assets, this is represented by the asset's gross carrying amount at the reporting date.

If the Group and the Company has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group and the Company measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

#### Financial liabilities

All financial liabilities are measured subsequently at amortized cost using the effective interest method or at FVTPL.

A financial liability may be designated as at FVTPL upon initial recognition if;

- Such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- The financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group and the Company's documented risk management or investment strategy, and information about the grouping is provided internally on that basis.

Financial liabilities measured subsequently at amortized cost

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortized cost of a financial liability.

### Derivative financial instruments

The Group and the Company enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts and interest rate swaps.

Derivatives are recognized initially at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain or loss is recognized in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

A derivative with a positive fair value is recognized as a financial asset whereas a derivative with a negative fair value is recognized as a financial liability. Derivatives are not offset in the financial statements. A derivative is presented as a non-current asset or non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realized or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

### Hedge accounting

The Group designates certain derivatives as hedging instruments in respect of interest rate risk in cash flow hedges.

At the inception of the hedge relationship, the Group documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is effective in offsetting changes in or cash flows of the hedged item attributable to the hedged risk, which is when the hedging relationships meet all of the following hedge effectiveness requirements;

- There is an economic relationship between the hedged item and the hedging instrument;
- The effect of credit risk does not dominate the value changes that result from that economic relationships; and
- The hedged ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the Group actually uses to hedge that quantity of hedged item.

### Cash flow hedges

The effective portion of changes in the fair value of derivatives and other qualifying hedging instruments that are designated and qualify as cash flow hedges is recognized in other comprehensive income.

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

#### b) Policies applicable before January 1, 2020

The Group use financial instruments to manage exposure of fluctuations in foreign currency exchange and interest rates. These instruments, which mainly comprise forward contracts and interest rate swap are recorded in the financial statements on the contract date. The purpose of these instruments is to mitigate risk.

Swap and forward contracts prevent effect from fluctuations in exchange rates by establishing the rate at which a foreign currency asset or liability will be settled. Swap and forward contracts are recorded as other financial assets or liabilities on inception, and are translated at the end of the reporting period exchange rate. Unrealized gains or losses on transactions are recognized in the statement of profit or loss. Premiums or discounts are amortized in the statement of profit or loss on a straight-line basis over the contract period.

Interest rate swap contracts prevent effects from fluctuations in floating interest rates. Any differential to be received or paid on an interest rate swap contracts are recognized as a component of interest income or expense over the period of such instrument. Gains or losses of early termination of interest rate swap contracts or on earlier repayment of the borrowing are recognized in the statement of profit or loss.

#### 3.4 Cash and cash equivalents

Cash and cash equivalents comprise cash, cash at banks type current accounts, saving accounts and fixed accounts not exceeding 3 months excluding cash at banks used as collateral and highly liquid short-term investments with original maturities of three months or less.

#### 3.5 Trade and other current receivables

##### a) Policies applicable prior to January 1, 2020

Trade and other current receivables are stated at cost net of allowance for doubtful accounts.

The allowance for doubtful accounts is assessed primarily on analysis of payment histories and future expectations of customer payments. Bad debts are written off when incurred.

##### b) Policies applicable from January 1, 2020

Trade receivables, other receivables are stated at cost less allowance for expected credit losses.

The allowance for expected credit losses has disclosed in Note 3.3.

#### 3.6 Inventories

Inventories comprise mobile phones, sim cards and spare parts used for repairs and services.

Inventories are stated at the lower of cost and net realizable value. The Group's and the Company's cost of inventories are calculated by using moving weighted average method.

Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs to complete and to make the sale.

An allowance for obsolete are decline in value are made for all deteriorated, changed, obsolete and slow-moving inventories.

#### 3.7 Investments

Investments in an associate, subsidiaries and joint ventures

Investments in subsidiaries in the separate financial statements of the Company and investment in an associate and joint ventures in the consolidated financial statements are accounted for using the equity method.

Investments in fixed deposit at banks, other debt and equity securities

Fixed deposit at bank is classified as part of current investment with maturities over three months, not exceeding one year.

Policies applicable before January 1, 2020.

Debt securities that the Group and the Company have the positive intent and ability to hold to maturity are classified as held-to-maturity investments. Held-to-maturity investments are stated at amortized cost less any impairment losses. The difference between the acquisition cost and redemption value of such debt securities is amortized using the effective interest rate method over the period to maturity.

Debt securities and marketable equity securities, other than those securities held for trading or intended to be held to maturity, are classified as available-for-sale investments. Available-for-sale investments are, subsequent to initial recognition, stated at fair value, and changes therein, other than impairment losses and foreign currency differences on available-for-sale monetary items, are recognized in other comprehensive income. Impairment losses and foreign exchange differences are recognized in the statement of profit or loss and other comprehensive income. When these investments are derecognized, the cumulative gain or loss previously recognized directly in equity is recognized in the statement of profit or loss and other comprehensive income. In case of these investments are interest-bearing, interest calculated using the effective interest method is recognized in the statement of profit or loss and other comprehensive income.

Equity securities which are not marketable are stated cost less any impairment losses.

The fair value of financial instruments classified as held-for-trading and available-for-sale is determined as the quoted bid price at the end of the reporting period.

Disposal of investments

On disposal of an investment, the difference between net disposal proceeds and the carrying amount together with the associated cumulative gain or loss that was reported in equity is recognized in the statement of profit or loss and other comprehensive income.

If the Group and the Company dispose of part of its holding of a particular investment, the deemed cost of the part sold is determined using the FIFO method applied to the carrying value of the total holding of the investment.

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

#### 3.8 Property, plant and equipment

##### Recognition and measurement

##### Owned assets

Property is stated at cost less allowance for impairment (if any).

Plant and equipment are stated at cost less accumulated depreciation and allowance for impairment loss.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and capitalized borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items for each major components of property, plant and equipment.

Gains or losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net in the statement of profit or loss.

##### Leased assets

Leases in terms of which the Group and the Company substantially assume all the risk and rewards of ownership are classified as finance leases. Property, plant and equipment acquired by way of finance leases is capitalized at the lower of its fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and allowance for impairment losses. Lease payments are apportioned between the finance cost and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance cost are recognized in the statement of profit or loss.

##### Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and the Company, and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of property, plant and equipment are recognized in the statement of profit or loss as incurred.

##### Depreciation

Depreciation is calculated based on the depreciable amount, which is the cost of plant and equipment, or other amount substituted for cost, less its residual value.

Depreciation is recognized in the statement of profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment. The estimated useful lives are as follows:

Buildings and building improvements	5 - 30 years
Leasehold building improvements	5 - 10 years
Computer, tools and equipment	3 - 20 years
Furniture, fixtures and office equipment	2 - 18 years
Communication equipment for rental	5 years
Vehicles	5 years

The Group and the Company have no depreciation provided on freehold land and assets under construction and installation.

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

#### 3.9 Right-of-use assets and Lease liabilities

The Group and the Company has applied TFRS 16 using the cumulative catch-up approach and therefore comparative information has not been restated and is presented under TAS 17. The details of accounting policies under both TAS 17 and TFRS 16 are as follows:

##### a) Policies applicable from January 1, 2020

The Group and the Company as lessee

The Group and the Company assesses whether a contract is or contains a lease, at inception of the contract. The Group and the Company recognizes a right-of-use asset and corresponding lease liability with respect to all lease arrangements in which it is the lease, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, The Group and the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leases assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group and the Company uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- The amount expected to be payable by the lease under residual value guarantees;
- The exercise price of purchase options, if the lease is reasonably certain to exercise the options; and
- Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

The lease liability is presented as a separate line in the consolidated statement of financial position and the separate statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group and the Company remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a yield interest rate, in which case a revised discount rate is used).
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Group and the Company incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognized and measured under TAS 37. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group and Company expects to exercise a purchase option, the related right-of-use is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

Depreciation of right-of-use assets are calculated by reference to their costs on a straight-line basis over the shorter of the lease term as follows:

Land and Building	1 - 11	years
Spectrum License	6	years
Leasehold for Tower	9	years
Equipment for Telecom	1 - 12	years
Office Building	1 - 5	years
Vehicle	1 - 5	years

The right-of-use assets are presented as a separate line in the consolidated statement of financial position and the separate statement of financial position.

The Group and the Company applies TAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the “Property, Plant and Equipment” policy.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognized as an expense in the period in which the event or condition that triggers those payments occurs and are included in the line “Other expenses” in profit or loss.

As a practical expedient, TFRS 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Group and the Company has used this practical expedient.

The Group as lessor

The Group enters into lease agreements as a lessor with respect to some of space and equipment.

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for the head lease and the sub-lease as two separate contracts. The sub-lease is classified as a finance lease or operating lease by reference to the right-of-use asset arising from the head lease.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group net investment outstanding in respect of the leases.

When a contract includes both lease and non-lease components, the Group applies TFRS 15 to allocate the consideration under the contract to each component.

#### b) Policies applicable prior to January 1, 2020

##### Operating lease

Leases not transferring a significant portion of the risks and rewards of ownership to the lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are recognized in the statement of profit or loss on a straight-line basis over the period of the lease.

When an operating lease is terminated before the lease period expired, any payment required to be made to the lessor by way of penalty is recognized as an expense in the period in which termination takes place.

##### Finance lease

Lease in which substantially all the risks and rewards of ownership other than legal title are transferred to the Group and the Company is accounted for as a finance lease. The Group and the Company capitalize the equipment at the lower of fair value of the equipment at the contractual date or estimated present value of the underlying lease payments. The leased assets are depreciated using the straight-line method over their estimated useful lives. Interest or financial charge is recognized by effective interest rate method over the term of contracts. Interest or financial charge and depreciation are recognized as expenses in the statement of profit or loss.

#### 3.10 Intangible assets

##### Goodwill

Goodwill that arises upon the acquisition of subsidiaries is included in intangible assets. The measurement of goodwill at initial recognition is described in Note 3.1. Subsequent to initial recognition, goodwill is measured at cost less impairment losses. In respect of equity-accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment, and an impairment loss on such an investment is not allocated to any asset, including goodwill, that forms part of the carrying amount.

##### Spectrum licenses

Spectrum licenses represent with its value measured at the cash equivalent price based on the present value of the installments. The difference between the total payment to be made and the cash equivalent price is recognized as finance cost over the license fee payment period, with the cost being amortized starting on date of the license effective.

##### Other intangible assets

Other intangible assets are consist of customer relationship, customer contracts, fibre optics licenses and software licenses which are acquired by the Group and the Company, which have finite useful lives, are measured at cost less accumulated amortization and impairment losses (if any).

##### Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in the statement of profit or loss.

##### Amortization

Amortization is based on the cost of the asset, or other amount substituted for cost, less its residual value.

Amortization is recognized in the statement of profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful lives are as follows:

Spectrum licenses	Over the period of the license
Customer relationship	5 years
Customer contracts	5 years
Fibre optics licenses	Not over the period of the license
Software licenses	3 - 10 years

The Group and the Company have no amortization provided on asset under installation.

Amortization methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

#### 3.11 Other assets

##### Deferred charges

Deferred charges represent costs of long-term leases of space for base stations, expenditures relating to the increase of power of electricity at base stations and International circuit are stated at cost less accumulated amortization and impairment losses (if any).

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

#### Amortization

Amortization is based on the cost of the asset, or other amount substituted for cost, less its residual value.

Amortization is recognized in the statement of profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful lives for the current and comparative periods are as follows:

Costs of long-term leases for base stations	Over the lease agreement period
Expenditures relating to the increase of power of electricity at base stations	Over the remaining period of the Agreement of operation period
International circuit	Over the agreement period

#### 3.12 Impairment

##### Policies applicable before January 1, 2020

The carrying amounts of the Group's and the Company's assets are reviewed at the end of the reporting period to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. For goodwill and intangible assets that have indefinite useful lives or are not yet available for use, the recoverable amount is estimated each year at the same time.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. The impairment loss is recognized in the statement of profit or loss.

When a decline in the fair value of an available-for-sale financial asset has been recognized directly in equity and there is objective evidence that the value of the asset is impaired, the cumulative loss that had been recognized directly in equity is recognized in the statement of profit or loss and other comprehensive income even though the financial asset has not been derecognized. The amount of the cumulative loss that is recognized in the statement of profit or loss and other comprehensive income is the difference between the acquisition cost and current fair value, less any impairment loss on that financial asset previously recognized in the statement of profit or loss.

##### Calculation of recoverable amount

The recoverable amount of available-for-sale financial assets is calculated by reference to the fair value.

The recoverable amount of a non-financial asset is the greater of the assets' value in use or fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

#### Reversals of impairment

An impairment loss in respect of a financial asset is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognized in the statement of profit or loss. For financial assets carried at amortized cost and available-for-sale financial assets that are debt and equity securities, the reversal is recognized in the statement of profit or loss and other comprehensive income. For available-for-sale financial assets that are equity securities, the reversal is directly recognized in the statement of profit or loss and other comprehensive income.

An impairment loss in respect of goodwill is not reversed. Impairment losses recognized in prior periods in respect of other non-financial assets are assessed at the end of the reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

#### 3.13 Interest-bearing liabilities

Interest-bearing liabilities are recognized initially at fair value less attributable transaction charges. Subsequent to initial recognition, interest-bearing liabilities are stated at amortized cost with any difference between cost and redemption value being recognized in the statement of profit or loss over the period of the borrowings on an effective interest basis.

#### 3.14 Trade and other current payables

Trade and other current payables are stated at cost.

#### 3.15 Employee benefits

##### Provident fund

The Group and the Company had provident funds which is a defined contribution plan. The fund's asset of the provident fund is separated from the Group's and the Company's asset and has been managed by a licensed fund manager. The provident fund receives a cash contribution from employee and the related Group and the Company. The contribution expenditure of the provident fund is recognized as expense in the statement of profit or loss of the reporting period that transaction occurred.

##### Post-employment benefit and long-term service award

The provision in respect of post-employment benefits that provide compensation according to labour law and long-term service award are recognized in the Group's and the Company's financial statements based on calculations by a qualified actuary using the projected unit credit method.

The Group and the Company recognized all gains (losses) on remeasurements of defined benefit plans arising from provisions for employee benefit in statement of profit or loss and other comprehensive income and all expenses related to provisions for employee benefit in the statement of profit or loss.

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

#### Termination benefits

Termination benefits are recognized as an expense in the statement of profit or loss when the Group and the Company are committed demonstrably, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy or the Group and the Company have made an offer of voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably. If benefits are payable more than 12 months after the end of the reporting period, then they are discounted to their present value.

#### Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are recognized as an expense in the statement of profit or loss as the related service is provided.

A liability is recognized for the amount expected to be paid under short-term cash bonus or profit sharing plans if the Group and the Company have a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

#### Share-based payments

The Group measured the expense of the Project by reference to the fair value of the equity instrument granted at the grant date.

The expense of the Project is recognized in the statement of profit or loss from operation corresponding to the increase in "reserve for share-based payment transaction" in shareholders' equity over the periods in which the service conditions are fulfilled.

#### 3.16 Provisions

A provision is recognized if, as a result of a past event, the Group and the Company have a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

#### 3.17 Recognition of revenue and expense

##### Revenue recognition

Revenue is measured at the fair value of the standalone selling price of each performance obligation in contracts.

Revenue from sale of goods recognized in statement of profit or loss when control is passed to the buyer.

Revenue from rendering of services from providing internet and other services recognized when the services are transferred to customers.

Revenue from design contract and installation of internet network, computer and communication ("ICT") recognize based on percentage of completion at the end of reporting period and in the period which the services were provided.

Revenue from contracts with multiple elements are allocated by fair value of standalone selling price in each performance obligation. In case of contracts have both obligations to perform at point of time and overtime, difference from revenue recognition and performance obligations at the beginning of contracts is recognized as contract assets or contract liabilities and recognized over the contracts periods.

Contract assets stated at net book value after allowance for terminate contracts

Allowance for terminate contracts is mostly assessed primarily on analysis of payment histories, future expectations of customer payments and cancellation contracts history. Contract assets will be written off when contracts are cancelled.

#### Costs of obtaining a contract

Cost of obtaining the contract is the commission paid to acquire the contract with the customers is recorded as an asset stated at net book value after allowance for impairment (if any) and recognized as an expense systematically over the contract periods in accordance with the revenue recognition from contracts. In case of costs of obtaining a contract's amortization period is less than 1 year, the Group and the Company will recognized costs of obtaining a contract as expenses when incurred.

#### Rental income

Rental income from rental equipment is recognized in the statement of profit or loss and on a straight-line basis over the term of the lease. Lease incentives granted are recognized as an integral part of the total rental income.

#### Interest income

Interest income is recognized in the statement of profit or loss on the accrual basis.

#### Expense

Expense is recognized in the statement of profit or loss on the accrual basis.

#### 3.18 Finance costs

Finance costs comprise interest expense on borrowings, unwinding of the discount on provisions and contingent consideration, losses on disposal of held-for-sale financial assets, fair value losses on financial assets at fair value through the statement of profit or loss, impairment losses recognized on financial assets (other than trade receivables), and losses on hedging instruments that are recognized in the statement of profit or loss.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognized in the statement of profit or loss using the effective interest method.

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

#### 3.19 Tax expense

Tax expense for the year comprises current and deferred tax. Current and deferred tax are recognized in the statement of profit or loss except to the extent that they relate to a business combination, or items recognized directly in shareholders' equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted and any tax adjustment items in respect of previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: the initial recognition of goodwill; the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and differences relating to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group and the Company expect, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they adjust, using tax rates enacted or substantively enacted at the end of the reporting period.

In determining the amount of current and deferred tax, the Group and the Company take into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Group and the Company believe that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Group and the Company to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the reporting period that such a determination is made.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized. Deferred tax assets are reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that the related tax benefit will be realized.

#### 3.20 Earnings per share

The Group and the Company present basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group and the Company by the weighted average number of ordinary shares outstanding during the year, adjusted for own shares held. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding adjusted with own shares held and the effects of all dilutive potential ordinary shares, which comprise convertible notes and share options granted to employees.

#### 3.21 Segment financial information

Segment results that are reported to the Group's Chief Executive Officer include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

#### 3.22 Use of management's judgement

The preparation of financial statements in conformity with Thai Financial Reporting Standards ("TFRSs") also requires the Group's and the Company's management to exercise judgments in order to determine the accounting policies, estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the end of the reporting period and the reported amounts of revenue and expense during the year. Although these estimates are based on management's reasonable consideration of current events, actual results may differ from these estimates.

Significant judgements in applying accounting policies are as follows:

The recognition cost of assets and depreciation method

Recognition of cost of assets incurred as part of the carrying amount of property, plant and equipment and intangible assets ended when the management has determined that the assets is in a working condition for their intended use of the management. Moreover, the accounting policies regarding to depreciation methods and estimated useful life of the asset requires management's judgments to review each financial year.

Impairment

The Group shall assess the assets balance at the statement of financial position whether there is any indication that an asset may be impaired. If any such indication exists, the Group shall estimate the recoverable amount of the asset.

Recognition of deferred tax assets associated with tax losses carryforward

Deferred tax assets are recognized to the extent that it is probable that it will be utilized in the future and the Company has assessed it to be probable that the Company will generate taxable income sufficient to fully utilize the tax losses that exist.

Significant commercial disputes and litigations

Item required to use management judgement in provision estimation from significant disputes and litigations because the outcome of litigations has not been finalized.

#### 3.23 Fair value measurements

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group and the Company take into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements are determined on such basis.

In addition, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 inputs are inputs, other than quoted prices included within Level 1, which are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

As at December 31, 2020, the Group and the Company have the outstanding balance of accrued income of revenue sharing in international direct dial service ("IDD") which is presented in overdue 12 months of Baht 1,584 million and Baht 1,574 million, respectively (as at December 31, 2019 : Baht 1,584 million and Baht 1,574 million, respectively).

On January 16, 2013, the Company has submitted a dispute to the Arbitration Institute demanding TOT Public Company Limited ("TOT") to pay this receivable plus interest, the total amount of Baht 1,526 million.

On May 1, 2017, the Arbitral Tribunal gave the arbitration award to order TOT to pay the revenue sharing of international call service from November 2008 to September 2012 to the Company in the amount of Baht 1,355 million and plus interest since date of the arbitration award until fully repayment date at 7.5% per annum of the principal amount. Moreover, TOT has to pay the revenue sharing of international phone service from October 2012 to the ending of the Agreement for operation on September 30, 2015, or until the agreement is amended or renewed.

On September 7, 2017, the Company received a Black case No.1148/2560 dated July 17, 2017, which TOT has filed to revoke the Arbitral Tribunal's award ordering TOT to pay the revenue share of international call service as mention above. Currently, the dispute has been in the process of consideration by the Central Administration Court process.

On 22 January 2021, the Central Administrative Court has resolved to dismiss TOT's petition, resulting in TOT shall pay the revenue share of international direct dialing service to the Company in accordance with the Arbitration ruling. However, TOT has the right to appeal to the Supreme Administrative Court within 30 days.

On November 26, 2013, Digital Phone Company Limited ("DPC"), a subsidiary, has submitted a dispute to the Central Administrative Court demanding CAT Public Company Limited ("CAT") to pay the revenue sharing of IDD of Baht 9 million plus interest rate at 7.5% per annum until the date of dispute submission, the total amount of Baht 11 million.

On May 31, 2018, the Central Administrative Court gave the decision and order CAT to pay for the revenue sharing of IDD to DPC of Baht 2.56 million plus interest rate at 7.5% per annum of principal amount from the date of dispute submission until full payment which shall be paid within 60 days from the date that the case was decided.

On June 29, 2018, DPC has appealed to the Supreme Administrative Court under the disagreement with the Central Administrative Court's decision ordering CAT to pay for the revenue sharing of IDD from the remuneration rate of usage and connection in accordance with the National Telecommunication Commission Order No. 11/2553 regarding "the Notification of Inter Connection charge on Telecommunication" which such rate was not the mutually agreed rate between DPC and CAT from revenue share agreement. Currently, the case has been in the process of consideration by the Supreme Administrative Court process.

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

#### 21. PROVISIONS FOR EMPLOYEE BENEFIT

The Group and the Company have provisions for employee benefit based on the requirement of Thai Labour Protection Act B.E. 2541 (1998) to provide retirement benefits to employees based on pensionable remuneration and length of service and long - term service awards.

On April 5, 2019, The Labor Protection Act (No. 7) B.E. 2562 has been announced in the Royal Gazette which will be effective in 30 days after the announce date. This Labor Protection Act stipulates additional legal severance pay rates for employees who have worked for an uninterrupted period of twenty years or more. Such employees are entitled to receive compensation of not less than that of the last 400 days, based on the final wage rate. This change is considered an amendment to post-employment benefits plan. The Group and the Company already reflected the effect of such change by recognizing past service cost as an expense in the consolidated and separate statements of profit or loss for the year ended December 31, 2019 in amount of Baht 636 million and Baht 72 million, respectively. (for the year ended December 31, 2020 : nil)

The defined benefit plans expose the Group and the Company to actuarial risks, such as longevity risk, interest rate risk and market (investment) risk.

### Unrealized gain on dilution of investment

The unrealized gain on dilution of investment comprises the cumulative net change in portion of investment until the investment is sold or otherwise disposed.

### 25. SEGMENT FINANCIAL INFORMATION AND DISAGGREGATION OF REVENUE

The Group has three reportable segments, as described below, which are the Group's strategic divisions. The strategic divisions offer different products and services, and are managed separately because they require different technology and marketing strategies. For each of the strategic divisions, the Chief Executive Officer (CEO) reviews internal management reports on at least a quarterly basis. The following summary describes the operations in each of the Group reportable segments.

Segment 1	Mobile phone services
Segment 2	Mobile phone and equipment sales
Segment 3	Datanet and broadband services

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before tax, as included in the internal management reports that are reviewed by the Group's CEO. Segment profit before tax is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

## Notes to the Financial Statements

Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

### 36. FINANCIAL INSTRUMENTS

#### Financial risk management policies

Risk management is integral to the whole business of the Group and the Company. The Group and the Company have a system of controls in place to create an acceptable balance between the cost of risks occurring and the cost of managing the risks. The management continually monitors the Group's and the Company's risk management process to ensure that an appropriate balance between risk and control is achieved.

#### Capital management

The Group and the Company aim to manage its capital structure to be stronger than industry peer and commit to be investment grade rating. This will allow the Group and the Company to retain superior financial flexibility in order to capture future growth prospect. The Group's and the Company's financial flexibility means diversified source of capital, ease of funding, and appropriate cost of capital.

In 3 - 5 years, telecommunications industry in Thailand will face another phase of technology change and hence new investment will be required. The Group and the Company believe that they can leverage on their capital structure in the future and have ability to find the source of funds through the debt instrument in order to expand their businesses.

#### Interest rate risk

Interest rate risk is the risk that future movements in market interest rates will affect the results of the Group's and the Company's operations and their cash flows because some of debt securities and loan interest rates are floating interest rate. The Group and the Company have interest rate risk from their borrowings (see Note 18). The Group and the Company mitigate this risk by ensuring that the majority of its debt securities and borrowings are at fixed interest rates and uses derivative financial instruments, principally interest rate swaps, to manage exposure to fluctuations in interest rates on specific debt securities and borrowings.

#### Interest rate swap contracts

Under interest rate swap contracts, the Group agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Such contracts enable the Group to mitigate the risk of changing interest rates on the fair value of issued fixed rate debt held and the cash flow exposures on the issued variable rate debt held. The fair value of interest rate swaps at the reporting date is determined by discounting the future cash flows using the curves at the reporting date and the credit risk inherent in the contract, and is disclosed below. The average interest rate is based on the outstanding balances at the end of the financial year.

As the critical terms of the interest rate swap contracts and their corresponding hedged items are the same, the Group performs a qualitative assessment of effectiveness and it is expected that the value of the interest rate swap contracts and the value of the corresponding hedged items will systematically change in opposite direction in response to movements in the underlying interest rates. The main source of hedge ineffectiveness in these hedge relationships is the effect of the counterparty and the Group's own credit risk on the fair value of the interest rate swap contracts, which is not reflected in the fair value of the hedged item attributable to the change in interest rates. No other sources of ineffectiveness emerged from these hedging relationships.

The following tables detail various information regarding interest rate swap contracts outstanding at the end of the reporting period in the consolidated financial statements and their related hedged items. (Separate financial statements : nil)

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

The interest rate swaps settle on a quarterly and semi-annual basis. The floating rate on the interest rate swaps is 6MTHBFIX plus margin. The Group will settle the difference between the fixed and floating interest rate on a net basis.

All interest rate swap contracts exchanging floating rate interest amounts for fixed rate interest amounts are designated as cash flow hedges to reduce the Group's cash flow exposure resulting from variable interest rates on borrowings. The interest rate swaps and the interest payments on the loan occur simultaneously and the amount accumulated in equity is reclassified to profit or loss over the period that the floating rate interest payments on debt affect profit or loss.

#### Foreign currency risk

The Group and the Company have foreign currency risk relating to expense, purchasing goods and equipment. The Group and the Company primarily utilize forward contracts, which are not more than 1 year, to hedge such financial liabilities denominated in foreign currencies to hedge long-term borrowings denominated in foreign currencies. The forward contracts entered into at the end of the reporting period also relate to borrowings, denominated in foreign currencies, for the subsequent period.

The Group and the Company have foreign currency risk in respect of financial assets and liabilities denominated as at December 31, are as follows:

\* The fair value of forward contracts is the adjusted value of the original contracts which the Company entered with the commercial banks with the market price. At the end of the reporting period in order to reflect the current value of the contracts.

\*\* The nominal amount of forward contracts is the value of the original contracts which the Company entered with the commercial banks and must be repaid at the maturity date.

#### Credit risk

Credit risk is the potential financial loss resulting from the failure of a customer or a counterparty to settle its financial and contractual obligations to the Group and the Company as and when they fall due.

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit over a certain amount. At the end of the reporting period there were no significant concentrations of credit risk.

#### Liquidity risk

The Group and the Company monitor its liquidity risk and maintain a level of cash and cash equivalents deemed adequate by management to finance the Group's and the Company's operations and to mitigate the effects of fluctuations in cash flows.

#### Fair values of financial assets and liabilities

Financial assets and liabilities measured at fair value in the consolidated statement of financial position as at December 31, are as follows: (separate financial statement : nil)

	Carrying amount	Unit: Million Baht			
		Consolidated financial statements			
		Fair value			
		Level 1	Level 2	Level 3	Total

#### Fair value hierarchy

The table above analyzes recurring fair value measurements for financial assets. These fair value measurements are categorized into different levels in the fair value hierarchy based on the inputs to valuation techniques used. The different levels are defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group and the Company can access at the measurement date.

Level 2: other inputs than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: unobservable inputs for the asset or liability.

For disclosure purposes, the Group determines Level 2 fair values for traded debentures have been determined based on quoted selling prices from the Thai Bond Market Association at the close of the business at the end of the reporting period.

For disclosure purposes, the Group determines Level 3 fair values for forward contracts were calculated using the rates quoted by the Group's and bankers which were based on market conditions existing at the statement of financial position date.

The fair value of trade and other current receivables and trade and other current payables are taken to approximate the carrying value.

The fair value of loans to and borrowings from related parties and lease liabilities are taken to approximate the carrying value because most of these financial instruments bear interest at market rate.

The fair value of long-term borrowings is taken to approximate the carrying value because most of these financial instruments bear interest at market rate.

#### 38. PROVISIONS LIABILITIES FROM WITHHOLDING TAX

Pursuant to the letter dated January 18, 2013, the Revenue Department demanded the Company to pay surcharge of Baht 128 million regarding the withholding tax on revenue sharing payment after excise tax deduction by giving the opinion that the excise tax is a part of revenue sharing. Therefore, the Company had paid the shortage of withholding tax amount of excise tax which came from the revenue sharing payment without excise tax deduction. The Company has submitted the appeal to the Commission of Appeal. The Commission of Appeal predicate that the Company has to submit the said surcharge.

On November 10, 2016, the Company has filed the case to Central Tax Court to appeal for the revocation of the decision by the Commission of Appeal.

On September 29, 2017, the Central Tax Court has decided to dismiss the cases by the Company, based on the same reason that the excise tax is a part of revenue sharing which the Company should pay to the concession granter in accordance with the concession agreement. Therefore, the Company has the obligations to pay for the withholding taxes incurred to the Revenue Department, failure in such conduct has resulted in the penalty to pay surcharge at the rate of 1.5% per month, aggregately the total amount of Baht 128 million.

On July 20, 2018, the Company has filed an appeal for the decision of the Central Tax Court.

On March 11, 2019, the Central Tax Court read the decision of the Court of Appeal to dismiss the cases.

On December 29, 2020, the Company paid to the Revenue Department in amount of Baht 128 million following the decision of the Supreme Court.

#### 39. SIGNIFICANT EVENTS, COMMERCIAL DISPUTES AND LITIGATIONS

On January 7, 2021, TOT Public Company Limited (“TOT”) and CAT Telecom Public Company Limited (“CAT”) were merged into one company named National Telecom Public Company Limited (“NT”)

##### The Company

- 1) Interconnection agreement in accordance with the announcement of National Telecommunication Commission (“NTC”)

According to Telecommunication Business Operation Act B.E. 2544 and the announcement of National Telecommunication Commission (“NTC”) regarding the Use and Interconnect of Telecommunication Network B.E. 2549, the Company has entered into an interconnection (“IC”) agreement with other operators approved by NTC and the effective period of the agreement is listed below:

Operators	Effective period
1) Total Access Communication Public Company Limited	November 30, 2006 onwards
2) True Move Company Limited	January 16, 2007 onwards
3) Digital Phone Company Limited	June 1, 2009 onwards
4) CAT Telecom Public Company Limited	April 7, 2010 onwards
5) Advanced Wireless Network Company Limited	April 1, 2013 onwards
6) Dtac TriNet Company Limited	July 1, 2013 onwards
7) True Move H Universal Communication Company Limited (Formerly Real Future Company Limited)	July 1, 2013 onwards

On August 31, 2007, TOT Public Company Limited (“TOT”) filed a lawsuit against NTC to the Central Administrative Court to revoke the announcement. On September 15, 2010, the Central Administrative Court dismissed the case which TOT filed to revoke the announcement of NTC regarding the Use and Interconnect of Telecommunication Network B.E. 2549. TOT has appealed such dismissal to the Supreme Administrative Court. On February 4, 2008, TOT sent a letter to the Company informing that the Company should wait for the final judgment of the Court. If the Company undertake the IC agreements per the NTC announcement before the final judgment of the Court, TOT shall not recognize the Company’s related actions and the Company must be responsible for such actions.

According to the Agreement for operations (“the Agreement”), the Company has to pay the higher of stipulated annual minimum payment or the percentage of service revenues and other benefits that the Company should be received in each year prior to deducting expenses and taxes to TOT. However, the Company has to comply with the regulation while TOT would like to wait for the final judgment of the court. As a result, the Company anticipated entering into a negotiation with TOT in relation to a calculation method of the revenue sharing. The Company calculated the revenue sharing from the net IC revenue which is similar to other operators in the telecommunication industry on a conservative basis. The revenue sharing amount to be paid to TOT is subject to the final judgment of the court in relation to revoke the announcement of NTC and a negotiation between TOT and the Company. The Company will make adjustment in the financial statement in the period when the issue has been agreed. The Company’s management believes that it will not incur significant expense more than the revenue sharing amount which the Company has recorded.

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

However, after having considered the letter from TOT, the relevant laws and the legal counsel's opinion, the management of the Company has the opinion that non-compliance with the above Interconnection Agreement would be in conflict with the announcement of NTC regarding the Use and Interconnect of Telecommunication Network. Therefore, the Company decided to comply with the said Agreements which are in line with the current legal provision in force by issuing invoices to collect the interconnection charge from the contractual parties.

On December 30, 2008, the Company remitted the revenue sharing incurred from the interconnection of the telecommunication network since February 2007 to June 2008 in the amount of Baht 761 million based on the rate and calculation method of the Company to TOT. Later, the Company and TOT had set up the negotiation committee to seek for the conclusion but it could not be done. TOT required the Company to pay revenue sharing calculated on gross interconnection charges received by the Company at the rate specified in the Agreement without deduction of interconnection charges which the Company had to pay to other operators. Thus, on January 26, 2011, TOT sent a letter demanding the Company had to pay the revenue sharing on the interconnection charges of the Agreement for operations year 17<sup>th</sup> - 20<sup>th</sup> in the amount of Baht 17,803 million plus interest at the rate of 1.25% per month. But the Company disagreed and sent a letter opposing the claim to TOT and the Company submitted the dispute to the Alternative Dispute Resolution Office, the Arbitration Institute, under the Black case No. 19/2554 on March 9, 2011 requesting the Arbitral Tribunal to give an award that TOT has no right to claim for such revenue sharing.

On July 29, 2014, TOT submitted a dispute No. 55/2557 demanding the Company to pay additional payment for the revenue sharing on the interconnection charges of the operation years 21<sup>st</sup> - 22<sup>nd</sup> in the amount of Baht 9,984 million plus interest at 1.25% per month on its outstanding and computing from the default date until the full amount is paid. In addition, TOT requested this case to be under the same consideration with the Black case No. 19/2554 to the Arbitral Tribunal.

On August 23, 2016, the Company submitted the dispute to the Alternative Dispute Resolution Office, the Arbitration Institute, under the Black case No. 83/2559 requesting the Arbitral Tribunal to give an award on the ground that TOT had no right to claim for such revenue sharing on the interconnection charges of the operation years 23<sup>rd</sup> - 25<sup>th</sup> in the amount of Baht 8,368 million plus interest at 1.25% per month on its outstanding amount for each year subject to the request by TOT.

On August 17, 2018, the Arbitration Institute had an award for the Black case No. 19/2554 to dismiss TOT demanding to claim the Company for revenue sharing on the interconnection charges of the Agreement for operations year 17<sup>th</sup> - 20<sup>th</sup> in the amount of Baht 17,803 million plus interest at the rate of 1.25% per month, ascribe that TOT had no right to claim for such amount, and prohibit TOT from claiming for operational bank guarantee in accordance with the agreement and minimum payment guarantee for operational year 17<sup>th</sup> - 20<sup>th</sup>. Moreover, the Arbitration Institute had dismissed a dispute No. 55/2557 and had ordered TOT to pay the Company for overpayment in revenue sharing on the interconnection charges by Baht 110 million within 60 days from receiving such award together with additional interest payment at 7.5% per annum if TOT made payment after due date. TOT has filed a petition to revoke the Arbitral Tribunal's award to the Central Administrative Court and under the process of consideration.

On April 30, 2019, the majority of arbitrators decided the Company for the Black case No. 83/2559 to pay the net revenue sharing amount of Baht 224 million with interest, which the Company agreed to pay to TOT by using the revenue sharing of interconnection charges in dispute 55/2557 amount of Baht 111 million and the remaining interest must be paid Baht 144 million. However, TOT did not accept, the Company therefore put the money on the Property Office on May 22, 2019.

On August 6, 2019, The Company received TOT's revocation the Arbitration's resolution by the Black case No.1713/2562 dated July 25, 2019 which TOT has submitted to the Central Administrative Court to revoke the above Arbitration's resolution. Currently, the case is in the process of the Central Administrative Court.

The Company's management believes that it will not incur significant expense more than the recorded amount.

#### 2) Obligations of the bank guarantees in connection with the Agreement for operations ("the Agreement")

According to the Agreement, the Company has the duties to deliver the bank guarantees to TOT Public Company Limited ("TOT") to secure the payment of the minimum revenue sharing for each operation year and shall recover the bank guarantee of the past operation.

TOT did not return the bank guarantees which have secured the payment of the minimum revenue sharing for the operation year 17<sup>th</sup> - 21<sup>st</sup> for a total value of Baht 7,007 million by claiming that the Company had not completely paid the revenue sharing due to the deduction of the revenue sharing for the excise tax and the deduction of the Interconnection Charges. Currently, the dispute has been considered by the Arbitration process.

On May 11, 2011 and October 5, 2012, the Company submitted the disputes to the Alternative Dispute Resolution Office, the Arbitration Institute, under the Black case No. 40/2554 and 119/2555 requesting the Arbitral Tribunal to award an order to TOT to return the bank guarantees to the Company because the Company had completely paid the revenue sharing for each operation year and had correctly complied with the law and the relating Agreements in all respects.

On February 10, 2014, the Arbitral Tribunal gave the arbitration award to order TOT to return the bank guarantees for the operation year 17<sup>th</sup> - 21<sup>st</sup> to the Company. On May 16, 2014, TOT submitted the Black case No. 660/2557 to the Central Administrative Court to revoke the Arbitral Tribunal's award.

On May 19, 2014, the Company submitted the Black case No. 666/2557 to the Central Administrative Court requesting TOT to return the bank guarantees for the 17<sup>th</sup> - 21<sup>st</sup> operation year to the Company according to the arbitration award and pay the bank guarantees fee of Baht 6.65 million which had been paid by the Company to the banks and plus interest at 7.5% per annum computing from the date that Company paid to the banks.

On September 21, 2020, the Central Administrative Court reached its decision to dismiss such dispute made by TOT and ordered TOT to return the bank guarantees for the operation year 17<sup>th</sup> - 21<sup>st</sup> to the Company according to the arbitration award and to return total court fees to the Company.

On October 19, 2020, TOT has appealed to dismiss such decision of the Central Administrative Court.

Currently, the Appeal petition is under the consideration of the Central Administrative Court.

#### 3) 900 MHz subscribers migration to 3G 2100 MHz

On September 25, 2014, TOT Public Company Limited (“TOT”) submitted a dispute under the Black case No. 80/2557 to the Arbitration Institute demanding the Company to pay compensation from the breach of the Concession Agreement between the Company and TOT in relation to the 900 MHz subscribers porting to 3G 2100 MHz provided by its subsidiary in the amount of Baht 9,126 million plus interest at 7.5% per annum from September 25, 2014 until the full amount is paid.

On March 29, 2016, TOT submitted the revision to amend the compensation amount from May 2013 to September 2015, the ending of the Agreement for operations for the amount of Baht 32,813 million plus VAT and interest at 1.25% per month from June 2013 until the full amount is paid.

On February 14, 2019, the Arbitration Institute dismissed the said dispute by giving the reason which the Company was not in breach of the Agreement.

On May 15, 2019, TOT has submitted the Black case No. 951/2562 to the Central Administrative Court to revoke the Arbitration’s resolution. Currently, the said case is in the process of the Central Administrative Court.

The Company’s management believes that the outcome of the dispute should be settled favourably and has no considerable impact on the financial statements of the Company.

#### 4) The claim for additional revenue from the 6<sup>th</sup> and 7<sup>th</sup> Amendments to the Agreement for operations (“the Agreement”)

On September 30, 2015, the Company submitted the dispute Black case No. 78/2558 to the Arbitration Institute, the Alternative Dispute Resolution Office, Court of Justice to decide regarding the 6<sup>th</sup> Amendment dated May 15, 2001 and the 7<sup>th</sup> Amendment dated September 20, 2002 to the Agreement for operations to conduct business of Cellular Mobile Telephone that the amendments bind the Company and TOT Public Company Limited (“TOT”) to comply with the amendments until the expiration of the Agreement for operations and the Company has no obligation to pay for the additional revenue according to the letter claimed by TOT to the Company on September 29, 2015 regarding to request the payment of additional revenue in the amount of Baht 72,036 million which TOT has claimed that the 6<sup>th</sup> and 7<sup>th</sup> Amendments were material which caused TOT to receive lower revenue than the rate as specified in the Agreement for operations.

Later, on November 30, 2015, TOT submitted the dispute Black case No. 122/2558 to the Arbitration Institute, the Alternative Dispute Resolution Office, Court of Justice to decrease the amount of the revenue claimed by TOT to Baht 62,774 million according to the percentage adjustment of revenue sharing upon the Agreement for operations. This case is the same as the dispute Black case No. 78/2558. The Arbitral Tribunal has merged the two cases together.

The Company received the award from the Arbitral Tribunal dated January 23, 2020 with a majority vote. The Tribunal ordered the Company to pay additional remuneration in the amount of Baht 31,076 million with interest of 1.25 percent per month after November 30, 2015 to TOT until the payment is complete.

The Company disagreed with the decision and on April 22, 2020, the Company has already filed a request for revocation of the award to the Central Administrative Court. (Black case No. 1165/2563)

Later, on April 23, 2020, TOT has submitted to request for the revocation of the decision from Arbitration Tribunal to the Central Administrative Court only regarding the issue that Arbitration Tribunal decided that the TOT’s claim for the remuneration Baht 31,698 million was submitted beyond the expiration of the claimed period. (Black case No. 1171/2563)

According to the dispute has not yet been finalized and the Company’s management considers that the result of the above ruling should not be considerable impact on the financial statements of the Company.

#### 5) The claim for installation and connection of telecom equipment within 900 MHz frequency band on the Base Site which Digital Phone Co., Ltd. (“DPC”) has transferred the title to CAT Telecom Plc. (“CAT”) subject to the Agreement for operations regarding Cellular Telecommunication Service between CAT and DPC

On April 29, 2016, CAT filed a lawsuit against the Company to the Central Administrative Court as the Black case No.613/2559 for the removal of installed and connected telecom equipment used in cellular telecommunication services within 900 MHz frequency band or other frequencies or other telecom equipment of the Company installed in 95 base sites which DPC has transferred to CAT subject to the Agreement for operations without approval from CAT. Therefore, CAT demanded the Company to compensate for the usage of assets owned by CAT during January 2013 to April 2016 in the amount of Baht 125.52 million plus interest at the rate of 7.5% per annum from the filing date until the compensation is paid in full and to pay for damages from the filing date in the amount of Baht 2.83 million per month plus interest at the rate of 7.5% per annum of the claimed amount in each month to CAT until the removal of telecom equipment is completed.

On March 19, 2018, the Central Administrative Court had an order this said case transferred to be under the Civil Court by the Black case No. 1681/2561.

On August 21, 2020, CAT submitted to revoke the dispute because both parties entered into the dispute settlement agreement on August 17, 2020. The Court authorized to withdraw the lawsuit and dismiss the case from the court.

#### 6) The Company submitted the claim to the Central Administrative Court for revocation of the National Telecommunication Commission order regarding revenue incurred from the temporary service for 900 MHz customer protection period after the Concession end

On May 1, 2017, the Company filed a lawsuit against office of the National Broadcasting and Telecommunication Committee (“NBTC office”), the National Telecommunication Committee (“NTC”), the National Broadcasting and Telecommunication Committee (“NBTC”) and other 5 persons to the Central Administrative Court under the Black case No. 736/2560 to revoke NBTC office’s letter and NTC resolution of the NBTC office to demanded the Company to pay revenue at remedy period from October 1, 2015 to June 30, 2016 in the amount of Baht 7,221 million plus interest.

On June 15, 2017, the Company received the indictment dated April 21, 2017 by the NBTC and the NBTC office which filed a lawsuit against the Company for the same amount to the Central Administration Court as Black case No. 661/2560 demanded the Company to pay revenue at remedy period.

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

The Company's management has considered that the Company has complied with NBTC announcement regarding the Temporary Customer Protection Plan Following the Expiration of the Agreement for operations or Telecommunication Service Agreement and the Company has obliged to submit the revenue after deducting any expenses to NBTC office but the Company has the expenses which incurred from the service greater than the revenue. Therefore, the Company has no remaining revenue to submit to NBTC Office as stipulated in the announcement.

On June 12, 2020, the Central Administrative Court has revoked the NBTC's order on ground that during the remedy period of 900 MHz, the Company has expenses which incurred from the service greater than the revenues generated.

On July 8, 2020 and July 17, 2020, the NBTC and the Office of NBTC appealed to the Supreme Administrative Court.

7) Claim for the additional revenue sharing from the rental charge for providing transmission services

TOT Public Company Limited ("TOT") has submitted the dispute No. A1/2017 dated December 15, 2017 to the Arbitration Institute, Ministry of Justice by Thailand Arbitration Center ("THAC") to claim for the payment regarding the additional revenue sharing from the rental charges for providing transmission services from January 2011 to September 2012 for the total amount of Baht 19.54 million and No. A1/2018 dated January 12, 2018 to claim for the payment regarding the additional revenue sharing from the rental charges for providing transmission services from October 2012 to September 2015 in the total amount of Baht 1,121.92 million (included VAT) including default interest rate at the rate 1.25% per month according to TOT views that the Company shall collect the rental charges for providing transmission services as the rate specified by TOT which is higher than the rental rate charged to the tenant.

On February 8, 2018, the Company has submitted the Black case No. Kor.1/2561 to the Central Administrative Court to revoke the THAC's order for consideration the dispute No. A1/2017.

On March 2, 2018, the Central Administrative Court has dismissed the Black case No. Kor.1/2561.

On March 5, 2018, the Company has submitted the Black case No. Kor.2/2561 to the Central Administrative Court to revoke the THAC's order for consideration the dispute No. A1/2018.

On March 16, 2018, the Central Administrative Court has dismissed the Black case No. Kor.2/2561.

Subsequently, on April 5, 2018 and April 11, 2018, the Company had appealed the dismissal the Black case No. Kor.1/2561 and the Black case No. Kor. 2/2561, respectively.

On February 13, 2020, THAC has decided with a majority vote to revoke TOT's dispute No. A1/2017.

On February 19, 2020, the Company issued notification letter to TOT to comply with the decision from Arbitration Tribunal.

On May 14, 2020, TOT submitted a petition to the Central Administrative Court under Black case No. 1362/2563 to request dismissal of such award.

Currently, the case is in the process of the Central Administrative Court.

The Company's management believes that the rental rate charged at the reasonable market price by the Company and also approved by NBTC.

8) Claim for the usage of co-location, site facilities and its related equipment rental for asset under Cellular Mobile Telephone providing during the temporary customer protection period after the Concession ended of Cellular Mobile Telephone

On February 15, 2018, TOT Public Company Limited ("TOT") has submitted the dispute No. A3/2018 to the Arbitration Institute, Ministry of Justice by Thailand Arbitration Center ("THAC") to claim for the payment regarding the usage of co-location, site facilities and its related equipment rental for asset under Cellular Mobile Telephone providing during the temporary customer protection period after the Concession ended in the total amount of Baht 183.44 million (included VAT) plus default interest rate at 1.25% per month.

On April 5, 2018, the Company has submitted the Black case No. Kor.3/2561 to the Central Administrative Court to revoke the THAC's order for consideration the dispute No. A3/2018.

On April 25, 2018, the Central Administrative Court has dismissed the Black case No. Kor.3/2561.

Subsequently, on May 21, 2018, the Company had appealed the dismissal the Black case No. Kor.3/2561.

On October 29, 2019, TOT has filed a petition to withdraw the dispute from THAC and further submitted to the Central Administrative Court.

On February 13, 2020, the Arbitrators had ordered allowing TOT submitted a petition to the arbitrators to request the removal of the above dispute.

On August 13, 2020, the Company received a copy of the Black case No. 1746/2563 dated June 30, 2020

Currently, the case is in the process of the Central Administrative Court.

The Company's management believes that the Company has correctly complied with the relating conditions of the Agreement and the announcement of the National Broadcasting and Telecommunication Committee in all respects then the outcome of the dispute should be settled favourably and has not considered to materially impact on the financial statements of the Company.

9) Claim for the revenue sharing from provision of roaming services

On September 27, 2018, TOT Public Company Limited ("TOT") has submitted the dispute as Black case No. 67/2561 to the Arbitration Institute, the Alternative Dispute Resolution Office Court of Justice to claim from the Company for the additional revenue sharing from provision of roaming services from the discount of service fees without prior consent from TOT since July 2013 - September 2015 in the total amount of Baht 16,252.66 million, value-added tax plus default interest rate at 1.25% per month.

The Company received the decision from the Arbitration Tribunal dated February 4, 2020 with a majority vote dismissed the case of TOT.

On May 8, 2020, TOT submitted a petition to the Central Administrative Court under the Black case No. 1309/2563 to request dismissal of such award.

The Company's management believes that the Company has correctly complied with the relating conditions of the Agreement in all respects, therefore the outcome of the dispute should not materially impact the financial statements of the Company.

#### Digital Phone Company Limited (“DPC”)

- 1) The deduction of excise tax from the revenue sharing between DPC and CAT Telecom Public Company Limited (“CAT”)

On January 9, 2008, CAT submitted a dispute under the black case No. 3/2551 to the Arbitration Institute, the Alternative Dispute Resolution Office, Court of Justice demanding DPC, a subsidiary, to pay additional payment of revenue sharing under the Digital Personal Communication Network Contract in the amount of Baht 2,449 million plus penalty at the rate of 1.25% per month of the unpaid amount of each year computing from the default date until the full payment is made which total penalty calculated up to December 2007 is Baht 1,500 million, totaling Baht 3,949 million.

Later, on October 1, 2008, CAT submitted the petition to adjust the amount claimed to Baht 3,410 million which calculated from the outstanding revenue sharing up to January 2008 including penalty in amount of Baht 790 million and value added tax in amount of Baht 171 million.

This amount is the same as an excise tax that DPC had delivered to the Excise Department during September 16, 2003 to September 15, 2007 and deducted it from revenue sharing according to the resolution of the Cabinet dated February 11, 2003. DPC has correctly complied with such Cabinet’s resolution and this practice is the same as other operators in mobile phone or cellular radio telecommunication industries. Moreover, CAT had sent a letter No. CAT 603 (Kor Tor.) 739 notifying DPC to comply with such Cabinet’s resolution.

On March 1, 2011, the Arbitral Tribunal dismissed the case by giving the reason which can be summarized that DPC was not in breach of the Agreement since DPC has completely made the payment of the revenue sharing and all debt was paid in full. Therefore, CAT has no right to re-claim for the alleged deficit amount, including the penalty and the value added tax.

On June 3, 2011, CAT submitted the Black case No. 1259/2554 to the Central Administrative Court to revoke the Arbitral Tribunal’s award.

On July 28, 2015, the Central Administrative Court reached its decision to dismiss such dispute made by CAT to revoke the Arbitral Tribunal’s award.

On August 25, 2015, CAT appealed such dismissal to the Supreme Administrative Court under Black case No. Or 1070/2558. Currently, this case has been considered by the Supreme Administrative Court.

- 2) Claim for the access charge payment and the deduction of access charge from revenue sharing between DPC, CAT Telecom Public Company Limited (“CAT”) and TOT Public Company Limited (“TOT”)

On May 9, 2011, TOT submitted the Black case No. 1099/2554 to the Central Administrative Court against CAT as the defendant no. 1 and DPC as the defendant no. 2 demanding CAT and DPC to pay the access charge amounting to Baht 2,436 million plus value added tax and interest calculated up to May 9, 2011, total amount of claim is Baht 2,954 million plus interest until the full payment is made as follows:

- 1) Part of DPC calculating on the amount of the mobile phone number which DPC had rendered the service at the rate of Baht 200/number/month, in the amount of Baht 432 million.
- 2) Part of CAT calculating on a half of the revenue sharing which CAT had received from DPC, in the amount of Baht 2,331 million.
- 3) The discount of access charge at the rate of Baht 22/number/month that DPC deducted from the revenue sharing, in the amount of Baht 191 million. Part of this demand is the same amount as CAT has claimed according to the dispute under Black case No. 68/2551 mentioned above but different in terms of the calculation period and interest.

Later, on July 31, 2014, TOT submitted a petition for revision to the Administrative Court to adjust the access charge amounting to Baht 5,454 million calculated up to September 16, 2013 which is the date of the Agreement for operation period ended plus valued add tax and interest calculated up to July 10, 2014, plus interest calculated from July 10, 2014 until full payment is made as follows:

- 1) Part of DPC calculating on the amount of the mobile phone number which DPC had rendered the service at the rate of Baht 200/number/month, in the amount of Baht 1,289 million.
- 2) Part of CAT calculating on a half of the revenue sharing which CAT had received from DPC, in the amount of Baht 3,944 million.
- 3) The discount of access charge at the rate of Baht 22/number/month that DPC deducted from the revenue sharing, in the amount of Baht 221 million.

On May 31, 2019, the Central Administrative Court revoke the Black case No.1099/2554 for the reason that the access charge is not in accordance with the law and the Notifications of National Telecommunication Commission regarding the Use and Interconnect of Telecommunication Network by calculating from the access charge according to such notifications.

TOT and DPC did not appeal to the Supreme Administrative Court so the case was terminated. TOT and DPC are reviewing historical data in order to calculate network connection fees to be paid for such judgment. Currently, both parties are not able to assess that transaction value which that data has mutually agreed.

The Company’s management believes that the outcome of this negotiation shall be in favour of DPC and have no material impact on the consolidated financial statement of the Group.

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

#### 3) The reduction of roaming fee between DPC and CAT Telecom Public Company Limited ("CAT")

CAT allowed DPC, a subsidiary, to reduce roaming fee per minute from Baht 2.10 to Baht 1.10 to be in line with the decrease of mobile phone service fee for 3 months started from July 1, 2006, onwards. DPC obtained the approval from CAT to renewed for three-month period several times until March 31, 2007. After that, CAT did not notify DPC of any changes until on March 24, 2008, CAT had sent a letter to notify DPC to charge roaming fee at Baht 2.10 per minute starting from April 1, 2007. On May 8, 2008, DPC sent a request letter to CAT to reconsider the roaming fee adjustment. The reason for such request was based on the market environment where the prevailing mobile phone service charge to consumers in the market was significantly lower than the specified roaming fee. Such high roaming fee is therefore unreasonable for DPC to provide the roaming service to any operators. In the letter, DPC informed CAT that during the period when CAT is reconsidering the request, DPC will charge roaming fee at Baht 1.10 per minute according to the previous agreed terms and conditions. On March 31, 2009, CAT approved DPC to charge roaming fee at Baht 1.10 per minute during January 1, 2009 - March 31, 2009. Moreover, DPC entered into the national roaming agreement with the Company to charge roaming fee at Baht 1.10 per minute approved by National Telecommunication Commission ("NTC") on June 16, 2009.

On July 15, 2010, CAT submitted a dispute under Black case No. 62/2553 to the Alternative Dispute Resolution Office, the Arbitration Institute, demanding DPC to pay additional payment of revenue sharing of 10<sup>th</sup> - 12<sup>th</sup> operation year that DPC reduced roaming fee per minute from Baht 2.10 to Baht 1.10 during April 1, 2007 - December 31, 2008 in amount of Baht 1,636 million plus penalty computing up to March 2010 of Baht 364 million, totaling Baht 2,000 million and penalty at the rate of 1.25% per month from April 2010 until the full amount is paid by alleging that CAT approved the said roaming fee reduction up to March 31, 2007 only.

On September 12, 2011, CAT submitted a dispute to the Alternative Dispute Resolution Office, the Arbitration Institute under Black case No. 89/2554 demanding DPC to make additional payment of revenue sharing of 12<sup>th</sup> operation year which DPC reduced roaming fee from Baht 2.10 per minute to Baht 1.10 per minute during April 1, 2009 - June 15, 2009 in the amount of Baht 113 million plus penalty at the rate of 1.25% per month from April 1, 2009 until the full amount is paid.

On April 5, 2019, DPC received the Arbitration Institute's decision dated March 28, 2019 of all the aforementioned disputes which the majority had made decision that the agreement regarding the revenue sharing of Roaming fees (at the rate of Baht 2.10) is legitimate and the reduction of Roaming fees is CAT's rights and authority who may or may not give approval. Therefore, DPC has to pay additional payment of revenue sharing of 10<sup>th</sup> - 12<sup>th</sup> operation year totalling amount of Baht 1,749 million plus penalty in the amount of Baht 364 million at the rate of 1.25% per month of the principle amount from April 2010 until the full amount is paid.

On July 3, 2019, DPC submitted a petition to the Central Administrative Court under Black Case No. 1582/2562 to request dismissal of such award.

Currently, this case has been considered by the Central Administrative Court process which the management of the Company believes that the outcome of this dispute shall have no material impact on the consolidated financial statements of the Group.

#### 4) The damage arisen from uncollectible international call service charges between DPC and CAT Telecom Public Company Limited ("CAT")

On April 8, 2011, CAT submitted a dispute under Black case No. 32/2554 to the Arbitration Institute, the Alternative Dispute Resolution Office, Office of the Judiciary demanding DPC to pay Baht 33 million including interest at the rate of 15% per annum of the claimed amount, total amount of claim Baht 35 million by alleging that DPC has committed a breach of the Digital PCN (Personal Communication Network) Service Agreement due to subscriber fraud on the Digital PCN Service Agreement between DPC and subscribers for 1,209 numbers during 1997 - 2003 causing damages to CAT where CAT was unable to collect the international call service charges occurred from the use of such numbers.

On May 28, 2013, the Arbitral Tribunal reached its decision to dismiss such dispute by stating that it is not about breach of the agreement but whether there has been a wrongful act. Therefore, the dispute is not within the Jurisdiction of the Arbitral Tribunal.

On September 6, 2013, CAT submitted the Black case No. 1767/2556 to the Central Administrative Court to revoke the Arbitral Tribunal's award.

On April 9, 2020, the Central Administrative Court issued an order to dismiss the request for revocation of the decision by Arbitration Tribunal.

On May 27, 2020, CAT has submitted an appeal to the Supreme Administrative Court.

The management of the Company believes that the outcome of this dispute shall have no material impact on the consolidated financial statements of the Group.

#### 5) Revenue sharing on interconnection charge between DPC and CAT Telecom Public Company Limited ("CAT")

On August 24, 2012, CAT submitted a dispute under Black case No. 110/2555 to the Alternative Dispute Resolution Office, The Arbitration Institute, demanding DPC to pay additional payment of revenue sharing of the 10<sup>th</sup> - 14<sup>th</sup> operation year totaling Baht 183 million and penalty at the rate of 1.25% per month of the above principal amount starting from the default date of each year until the full amount is paid.

On April 1, 2014, CAT submitted a dispute under Black case No. 26/2557 to the Alternative Dispute Resolution Office, The Arbitration Institute, demanding DPC to pay additional payment of revenue sharing of 15<sup>th</sup> - 16<sup>th</sup> operation year totaling Baht 203 million plus default interest at the rate of 7.5% per annum and penalty at the rate of 1.25% per month of the above principal amount starting from the default date of each year until the full payment is made. Such amount represents the revenue sharing which CAT calculated on gross interconnection charge received by DPC from other operators at the percentage rate specified in the Agreement without deduction of interconnection charge which DPC has to pay to other operators.

On September 30, 2019, DPC received the decision for Black case No. 26/2557 by the arbitration committee dated September 26, 2019, and on October 11, 2019, DPC received the decision for Black case No. 110/2555 by the Arbitration committee dated October 10, 2019, with major votes to dismiss CAT's two disputes.

## Notes to the Financial Statements

### Advanced Info Service Public Company Limited and its subsidiaries for the Year ended December 31, 2020

On December 17, 2019, CAT has filed by Black case No. 2754/2562 to revoke the Arbitral Tribunal's award in Black case No. 110/2555 to the Central Administrative Court.

On December 25, 2019, CAT has filed by Black case No. 2908/2562 to revoke the Arbitral Tribunal's award in Black case No. 26/2557 to the Central Administrative Court.

Currently, the two said cases are under the consideration of the Central Administrative Court.

The Company's management believes that the outcome of this dispute shall be settled favourably and has no material impact on the consolidated financial statements of the Group since DPC has correctly and fully complied with the law and the related conditions of the Agreement in all respects.

#### 6) Obligations of the bank guarantees in connection with the Agreements for Operations

According to the Agreement for Operations, DPC has the duties to deliver the bank guarantees to CAT Telecom Public Company Limited ("CAT") to secure the payment of the minimum revenue sharing for each operation year and shall recover the bank guarantee of the previous operating year.

CAT did not return the bank guarantees which have secured the payment of the minimum revenue sharing for the operation year 10<sup>th</sup> - 14<sup>th</sup> for a total value of Baht 2,606 million by claiming that DPC had not completely paid the revenue sharing due to the deduction of the revenue sharing for the Excise Tax and the deduction of the Interconnection Charges, the discount of Access Charges and the reduction of the rate of roaming charge where the disputes of which have been pending the consideration of the Arbitral Tribunal.

On October 8, 2012, DPC submitted a dispute to the Alternative Dispute Resolution Office, the Arbitration Institute, Black case No. 120/2555 requesting the Arbitral Tribunal to award an order to CAT to return the bank guarantees to DPC because DPC has completely paid the revenue sharing for each operation year and has correctly complied with the law and the relating Agreements in all respects.

On May 28, 2015, the Arbitral Tribunal reached its decision to award an order to CAT to return the bank guarantees and its bank fees to DPC. Later, on September 15, 2015, CAT has submitted the Black case No. 1671/2558 to the Central Administrative Court to revoke the Arbitral Tribunal's award.

Later on September 13, 2018, the Central Administrative Court has dismissed the CAT's Black case No. 1671/2558 that revoke the Arbitral Tribunal's award, on the reason that the award is correct and in compliance with law. The award by Arbitral Tribunal did not affect public interests and good morals, therefore such award by Tribunal Arbitral is perfectly effective. However, CAT has appealed to the Supreme Administrative Court. Currently, it is under the consideration of the Supreme Administrative Court.

The Group's management believes that the outcomes of this dispute shall be settled favourably since DPC has correctly complied with the related conditions of the Agreement in all respects as the Arbitral tribunal's and the Central Administration Court's decision.

7) The claim for the usage/revenue arising from the use of telecommunication equipment and telecommunication network during the temporary customer protection period after the Concession ended

On May 20, 2015, CAT Telecom Public Company Limited ("CAT") filed a lawsuit against office of the National Broadcasting and Telecommunication Committee ("NBTC Office"), National Telecommunication Committee ("NTC"), National Broadcasting and Telecommunication Committee ("NBTC"), True Move Company Limited ("True Move"), and DPC to the Central Administrative Court Black case No.918/2558 to pay for the fees and revenue from the usage of telecommunication equipment and telecommunication network of CAT during the temporary customer protection period, subject to the announcement of NBTC regarding the Temporary Customer Protection Plan Following the Expiration of the Agreement for operations or Telecommunication Service Agreement, calculated from September 16, 2013 to September 15, 2014, total amounts are as follows:

- 1) NBTC Office, NTC and NBTC in the amount of Baht 24,117 million plus interest at the rate of 7.5% per annum.

- 3) DPC, NBTC Office, NTC and NBTC in the amount of Baht 1,457 million plus interest at the rate of 7.5% per annum.

Black case No. 1651/2558

- 1) NBTC Office, NTC and NBTC in the amount of Baht 4,169 million plus interest at the rate of 7.5% per annum.
- 2) True Move, NBTC Office, NTC and NBTC in the amount of Baht 2,946 million plus interest at the rate of 7.5% per annum.
- 3) DPC, NBTC Office, NTC and NBTC in the amount of Baht 1,223 million plus interest at the rate of 7.5% per annum.

Black case No. 741/2559

- 1) NBTC Office, NTC and NBTC in the amount of Baht 1,858 million plus interest at the rate of 7.5% per annum.
- 2) True Move, NBTC Office, NTC and NBTC in the amount of Baht 1,336 million plus interest at the rate of 7.5% per annum.
- 3) DPC, NBTC Office, NTC and NBTC in the amount of Baht 522 million plus interest at the rate of 7.5% per annum.

On February 19, 2020, DPC submitted an objection of the request to amend the claim amount for the Black case No. 741/2559.

On March 11, 2020, DPC submitted an objection of the request to amend the claim amount for the Black case No. 918/2558 and 1651/2558.

Currently, the dispute has been considered by the Central Administrative Court which the management of the Company believes that DPC has no obligation to pay for the usage fees and revenue from the usage of telecommunication equipment and telecommunication network as claimed by CAT due to DPC has complied in accordance with the announcement of NBTC. Therefore, the outcome of the said dispute should be settled favourably and has no considerable impact on the consolidated financial statements of the Group.

- 8) The claim for revocation of the National Telecommunication Committee (“NTC”) order regarding to revenue incurred from the temporary service for customer protection period after the Concession end

On November 16, 2015, DPC, filed a lawsuit against the National Broadcasting and Telecommunication Committee (“NBTC”) to the Central Administrative Court under case no. 1997/2558 to revoke NTC resolution which office of the NBTC has demanded DPC to deliver revenue at consumer protection period starting from September 16, 2013 to July 17, 2014 in the amount of Baht 628 million.

In the same case, on September 16, 2016, NBTC and office of the National Broadcasting and Telecommunication Committee (“NBTC office”) filed a complaint to the Central Administrative Court as the Black Case No. 1441/2559 requesting DPC to submit the revenue sharing during consumer protection period, from September 16, 2013 to July 17, 2014 in the amount of Baht 680 million (including interest up to submitted date by Baht 52 million) plus interest at the rate of 7.5% per annum of the claim amount from the next day of the submit date until DPC deliver all revenue sharing in full.

On September 7, 2018, the NBTC office issued a letter informing the resolution of the NBTC to allow DPC to send money from the service income during the protection of all subscribers, totaling Baht 869 million and when the NBTC had ever the order for DPC to send money for the first period until the amount of Baht 628 million, the remaining amount to be paid is Baht 241 million. On December 7, 2018, DPC filed a lawsuit with the Central Administrative Court to revoke such resolution of NTC.

On August 19, 2019, the Central Administrative Court ordered to merge the two case together.

The Company’s management has considered that DPC has complied with NBTC announcement regarding the Temporary Customer Protection Plan Following the Expiration of the Agreement for operations or Telecommunication Service Agreement 2013, and the Company has obliged to submit the revenue after deducting any expenses to NBTC but DPC has expenses which incurred from the service greater than revenue. Therefore, DPC has no revenue remaining in order to submit to NBTC as stipulated in the announcement.

Currently, the said case is in the process of the Central Administrative Court.

- 9) The claim for providing of telecom equipment and the telecommunication networks under the Agreement for operations regarding cellular telecommunication services (“the Agreement”) between CAT Telecom Public Company Limited (“CAT”) and DPC to other operators to use.

On June 30, 2016, CAT submitted a dispute under Black case No. 57/2559 to the Alternative Dispute Resolution Office, The Arbitration Institute, demanding DPC to remove telecom equipment and the telecommunication networks used in cellular telecommunication services under 2100 MHz and the other telecom equipment owned by Advanced Wireless Network Company Limited (“AWN”) and under 900 MHz and other MHz included device or other telecom equipment owned by Advanced Info Service Public Company Limited (“the Company”) which is installed in 97 base stations subject to the Agreement operated by DPC without the approval from CAT.
